

# Fall Seminars

2024

SEP  
18

**DR. SCOTT RAY,  
DANIEL BOONE NF**

Complexities of  
managing a National  
Forest

SEP  
25

**DR. HANNAH TIFFIN,  
UK ENTOMOLOGY**

Exploring connections  
between entomology and  
wildlife health

OCT  
02

**DR. STEVE PRICE,  
COAL MINING &  
AMPHIBIANS**

Lessons from 10+ years of  
research in the Central  
Appalachians

OCT  
09

**DR. KAREN KING,  
READING RINGS**

The role of  
dendrochronology in  
understanding  
environmental change

OCT  
16

**DR. JEFF ATKINS,  
FUSION APPROACHES**

With, Remote Sensing and  
in situ Data for Forestry and  
Forest Ecology Applications

OCT  
30

**DR. SALLY CHAMBERS,  
BOTANICAL RESEARCH**

Botanical research,  
opportunities, and resources  
in Eastern Kentucky

NOV  
06

**DR. FRANZ SIMON,  
SUSTAINABLE FUTURES**

Enhancing food security and  
resilience in the context of  
biodiversity loss.

NOV  
13

**DR. KEVIN M. POTTER,  
PROJECTED FUTURE**

Assessing the current  
ecological integrity &  
projected future extent of  
mature forests across the U.S.

NOV  
20

**MEAGHAN PETIX,  
ASSESSING NITROGEN**

Assessing nitrogen  
deposition in mountainous  
regions using epiphytic  
lichens

DEC  
04

**DR. BRENT PEASE,  
NON STATIONARITY**

Non-stationarity in  
ecology: drivers of spatial  
and temporal variation in  
ecological relationships

DEC  
11

**DR. BRYANT  
DOSSMAN**

The role of climate across  
the full annual cycle on  
population and range  
dynamics of migratory  
birds

WEDNESDAYS  
1:00 PM ET  
TPC 217
